

BROTHERS AND SISTERS:

Received this from carrier with link to timekeeping, which is self-explanatory.

MIKE

"Ladies and Gentlemen:

The current trip rate, flip rate and overtime offset for all implemented freight/local pools on the UPRR system can now be found on the Employees' Timekeeping web site. There are two reports, one for the BLE&T and one for the UTU.

If you are outside the UPRR intranet, you can find the reports by logging into the UPRR Employee home page, then click the Departments link, then click Timekeeping Operations link, then click Operating Personnel link, then click the TE&Y Help Sheets link and you will find the two reports at the bottom of the page.

If you are within the UPRR intranet, you can use the following link:

<http://home.www.uprr.com/emp/operating/timekeep/operating/tkhelpshts.shtml>

Appreciate your patience. Now that we have created the process to generate these reports, in the future, we will issue the reports in a more timely manner. Also, we hope to have a search engine attached to the reports with our next scheduled raise in July.

Should you have any questions, feel free to call me (402-591-2002) or email me."
